

Central Intelligence Agency

Washington, D. C. 20505

30 November 1982

25X1

Dear

25X1

Thank you for your letter of 15 November 1982 concerning your interest in a summer internship with this Agency. I was pleased to learn of your interest in us.

I note from your letter that you are a freshman at [redacted] College. Regretfully, an applicant for our summer Graduate Studies Program must be in their senior year and planning to enter graduate school following their internship or must be in graduate school at the time they submit their application to be eligible for this program. I am enclosing a flier which describes this program for your information. It also describes our Co-Op Program for undergraduate students in engineering, physics, math, computer science, business or accounting at schools which have a formal Co-Op arrangement with us. Again, regretfully, [redacted] does not have such an arrangement with us.

STAT

I appreciate your writing to me and you may wish to get in touch with us in your senior year in the event that your interest in the summer program or in regular staff employment continues. To give you some additional information, I am enclosing some of our recruitment literature.

Best wishes for a successful academic year. My best, too, to your father.

Sincerely,

STAT

Executive Director
